Career Objective

Looking for a long-term association with people-oriented organization where individual talent, skill, honest and hard work are acknowledged and conducive work culture is provided.

Academic Credentials

- Passed Bachelor of engineering from Pune University.
Stream: Electrical
Percentage: 70.00%
Passing Year: 2021
 - Passed Diploma in engineering from Dattakala Institute.
Stream: Electrical
Percentage: 71.20%
Passing Year: 2017
 - Passed 10th from CBSE Board, Pune.
Percentage: 75.20%
Passing Year: 2014
-

Project

Title: Electricity Theft Detection System.

Electricity Theft detection is done by comparing the values of Sending end voltage with the Receiving end voltage where difference between both the values indicates theft.

Title: Ultra-Fast acting circuit breaker.

Conventional Circuit breaker like MCB based is on thermal bimetal lever trip mechanism. It is very slow and trip time is dependent on percentage of overload. This project senses the current passing through a series element and the corresponding voltage drop is compared against the pre-set voltage proportional to current by a level comparator to generate an output for the load to trip.

Key Skills

- Problem solving & Analytical skills
 - Time management & project management skills
 - Strategic thinking and planning abilities
 - Initiative.
-

Personal Information

Date of birth: 17th July,1998

Father's Name: Ramsharan Pandey

Mother's Name: Rani Pandey

Nationality: Indian

Marital Status: Single

Linguistic abilities: English, Hindi, Marathi.
